# Acknowledge

This is an opportunity for us to appreciate how important the eProject step-by-step help us to develop our skill with simulates the class-room and Lab based learning enviroment into actual implementation. It is such a great project implementation at your fingertips!! An electronic, allowed to live juncture on the machine.

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Have an opportunity to work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through supported email.

Obviously we would love to send an appreciate thank to our professor and others student for having full supports during our time in project. Despite of having had serveral mistakes in the project, we hope to have more oppotunities to widen our knowledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,

Team Group 03.

# Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

Nexus Aquarium is located in Washington, D.C where is a nurturing and breeding place for aquatic animals. There are many objects to visit here, including families, and especially children. In this project, our team will build a website for the Nexus Aquarium, helping guests who intend to visit will have a clearer picture of this place, in addition to online booking service and more...

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back ***eprojects@aptech.ac.in*** as the assigned schedule.

<b>Design Plan:</b> Nexus Aquarius	<b>Document Name:</b> Problem Definition	<b>SWD/Form</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 10-04-2021	<b>Version</b> 1.0	<b>Page No:</b> 1 of 13

## Problem Definition

### I. Content:

Nexus Aquarium is located in city of Washington, which is the one of well known place for tourism. Aquarium is very huge and comprises of marine life animals and they are fed and breeding. It is the big centre for organizing the school events for the purpose of study and so on. For the children to visit an aquarium is big thing as they love to sea creatures. The organization wishes to make a website for the aquarium for which they have contacted us.

### II. Problem to be solved:

#### 1. Requirement Specification:

- The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.
- The Home page must have well defined logo and image of the sea creatures.
- Apart from home link, other links such as gallery section, certain information about animals (marine life animals) they have.
- Contact details must be added. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps) and the email address which when clicked will invoke the local mail client from where they can send an email.
- Events (separately for children) must be stated in the website with the proper schedule and details.
- Online booking of event (Dummy page where information must be entered, and validation checking must be done)

<b>Design Plan:</b> Nexus Aquarius	<b>Document Name:</b> Problem Definition	<b>SWD/Form</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 10-04-2021	<b>Version</b> 1.0	<b>Page No:</b> 2 of 13

- Timing and location must be stated in the website. Location should be displayed using GeoLocation API (eg. GoogleMaps)
- Images of the aquarium location (site seeing must be included)
- Navigation must be maintained smooth.
- Color combination must be precise and uniformity must be maintained.
- Categorization of the marine life animals and there different species information should be shown in tabular form.
- Feedback form (dummy) should be provided.

### III. Functionality:

#### 1. Function for user:

- Read news about Nexus Aquarium
- Login
- Membership registration
- Search on site
- Book tickets online
- Online ticket payment
- Online support from admin
- Rate, feedback.

#### 2. Function for webmaster:

- Members management
- Tickets management
- Form validation from user

## Customer Requirements Specifications

### User:

#### Input:

- Online booking service for sightseeing
- Sign up to buy tickets. (number of members, number of child tickets and adult tickets)
- Service reviews

#### Process:

- Add / edit / delete sightseeing services.
- Check ticket purchase information, number of child tickets and adult tickets.
- Check service registration information.
- Check rating information, delete rating.

#### Output:

- You have chosen a tour service.
- Information on successful / failed ticket purchase registration.
- Information on successful / unsuccessful tour registration. You -

## Webmaster:

### Input:

- Form online booking service for sightseeing.
- Form sign up to buy tickets. (number of members, number of child tickets and adult tickets).
- Form service reviews

### Process:

- Handling data using bootstrap and javascript.

### Output:

- Successful confirmation / error capture if you have not chosen to buy a ticket.
- Successfully confirmed according to the selected service or not the service selected
- Alert “Thank you for the review”
